Career Objective

"As a recent graduate with a strong foundation in computer science, I am eager to begin my career as a software developer. With hands-on experience in programming languages such as Java, Python, and C++, along with familiarity in web development, data structures, and algorithms, I am looking to apply my skills to solve real-world challenges. I am committed to continuous learning, adapting to new technologies, and contributing to innovative solutions that help organizations grow. My goal is to work in a dynamic and collaborative environment where I can develop my technical expertise and contribute to impactful projects."
